KeyMander 2 3Play Keyboard/Mouse Sharing Switch for PC & Game Consoles

- Use a keyboard & mouse in place of your controller on Xbox One, PS4 & Nintendo Switch game systems
- Share a keyboard & mouse between up to 3 PCs and game consoles with hot key switching
- Crossover function lets you swap controllers between PS4, Xbox One and Nintendo Switch
- Play First Person Shooter games like PUBG & Call of Duty with increased speed & accuracy
- Android/iOS apps provide custom key mapping, mouse sensitivity, macro functions & more

Dominate With Keyboard & Mouse on Console & PC

The KeyMander™ 2 3Play™ from Kaliber Gaming by IOGEAR is a keyboard/mouse sharing switch for PC and game consoles, that allows gamers to share their keyboard and mouse between any (3) three of the following devices, PC, Xbox Series X|S, Xbox One, PS5®, PS4®, or Nintendo® Switch. Use your keyboard and mouse skills to dominate all your favorite First-Person Shooter (FPS), Role Playing Games (RPG) and Real-Time Strategy (RTS) games. Playing on a console has never been this much fun!

Always Connected to Play Your Way - On Console & PC

The KeyMander 2 3Play combines next generation controller adapter technology with a peripheral sharing switch to bring the unmatched speed and precision of a keyboard and mouse to up to (3) three game consoles, or (2) two consoles plus a PC.

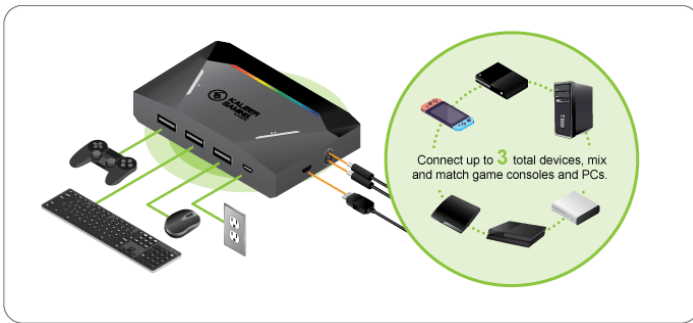

Play or work on your PC and quickly switch over to your favorite game console with hotkey switching. Connect your favorite ways to game and eliminate the need to disconnect and reconnect wiring. Join your console friends in a round of Apex Legends, then switch over to your PC to meet up with your squad for Doom Eternal.

- Use a keyboard & mouse in place of your controller on Xbox Series X|S, Xbox One, PS5*, PS4 & Nintendo Switch game systems
 - Share a keyboard & mouse between up to 3 PCs and game consoles with hot key switching
 - Crossover function lets you swap controllers between PS4, Xbox One and Nintendo Switch
 - Play First Person Shooter games like PUBG & Call of Duty with increased speed & accuracy
 - Android/iOS apps provide custom key mapping, mouse sensitivity, macro functions & more
 - Download & share game profiles from the K2 app; backup your profiles to the cloud
 - Connect your smartphone via Bluetooth while gaming to make on-the-fly adjustments
 - Free KeyMander 2 Forum: news, support, community, pre-made game profiles & exclusive giveaways!
 - Create custom profiles for specific games & scenarios
 - Custom key mapping & mouse button assignments
 - Record & save custom macro functions
 - On-the-fly tuning of mouse sensitivity & deadzone adjustment
 - Create custom mouse response curves for your style of play
 - New traction control improves accuracy when turning onto targets behind you
 - Save profiles in the app and backup your library to the cloud
 - Customize button layouts in Controller Crossover Mode when using other controllers
 - Share custom game profiles with friends
- *PS5 compatibility is currently limited to games that do not require the Dual Sense controller. Use of a third party controller is required. Full PS5 compatibility is under development.

K2 App:
