

GKM581R

2.4GHz Wireless On-Lap Keyboard with Optical Trackball and Scroll Wheel

IOGEAR's innovative new specially designed contoured fitting 2.4GHz Wireless On-Lap Keyboard with Optical Trackball and Scroll Wheel gives you the comfort and freedom of 33 feet wireless connectivity between you and your PS3 or other game console, home theater PC / computer or laptop and HDTV.

The ergonomic design is contoured on the back of the keyboard enhancing the user experience by comfortably resting on your lap, making the way you wirelessly interact with your content easier, efficient, and practical for continuous usage. It serves as an ideal productivity solution for PC to TV setups, as well as interaction with game consoles accessibility to multimedia and online content; driving your content how you want it and when you want it from the comfort of your couch.

The On-Lap Keyboard also has a very well thought out placement of an additional left click button on same side as the trackball for convenient, practical and precise singlehanded navigation.

- Brilliant on-lap design wireless 2.4GHz keyboard with built-in optical trackball, left / right buttons and scroll wheel features
- Ideal for a convenient PC to TV experience from the comfort of your couch
- Provides an intuitive way of interaction with game consoles accessibility to multimedia and online content
- 2.4GHz technology offers greater wireless range up to 33 feet away from your home theater PC / computer or laptop
