

GME630

Kaliber Gaming™ SYMMETRE Ambidextrous Gaming Mouse

- USB 2.0 Full speed gaming mouse
- Fully ambidextrous design for right- or left-handed gamers
- 9 buttons with custom programming software
- Avago ADNS-3050 optical sensor
- Adjust on-the-fly up to 4000 dpi

Ambidextrous Gaming Mouse

Kaliber Gaming by IOGEAR's SYMMETRE Ambidextrous Gaming Mouse is the perfect choice for both casual gamers, as well as hardcore gamers that care more about performance than bells and whistles. On the outside SYMMETRE is designed for everyone, and features a truly ambidextrous design with thumb buttons for right and left-handed gamers. At the heart of SYMMETRE is a gaming-grade optical sensor that delivers a level of speed and accuracy on par with mice costing over twice as much. Rather than compromising performance to save cost, SYMMETRE instead strips away "fluff" like custom lighting colors that while looking nice, certainly won't help you win any games. What does help you win games are core features like user programmable buttons for adding macros, and shift on-the-fly adjustable resolution up to 4000 dpi which make SYMMETRE an excellent performer and a great value.

Macro Buttons

Use the Kaliber Gaming software to program up to 8 buttons with macros or custom functions

4000 dpi Optical Sensor

Shift on-the-fly adjustable resolution from 500 to 4000 dpi with gaming grade optical sensor

Ambidextrous Design

Completely ambidextrous design fits both left-handed and right-handed gamers equally well
