

GTD733

# Quantum Thunderbolt 3 Docking Station

- 5K resolution or dual 4K resolution
- DisplayPort video output (4K)
- 15W power delivery via USB-C
- Thunderbolt 3 / USB-C expansion port
- 40Gbps data bandwidth
- USB-C port (USB 3.1 Gen1)

## Harness the Full Potential of Thunderbolt 3

If you're a business professional, content creator, gamer, or just want to simplify your 4K workspace, your world is about to get faster and simpler. IOGEAR Thunderbolt 3 Docking Station brings unbelievable connectivity to your MacBook Pro or Windows laptop with the included Thunderbolt 3 cable. Use only one cable to charge your laptop, create the ultimate 5K or dual 4K display and transfer unprecedented amounts of data - all at the fastest speeds possible.

## Dual 4K or 5K Resolution - Limitless Creativity

Combining the true immersive experience with amazing detail, the IOGEAR Docking Station allows you to connect two 4K displays with nearly 16 million more pixels than an HDTV. This graphical power house also supports the latest generation 5K displays, so you can unravel the astonishing resolution, contrast, and color depth of your photos, videos and applications.

- 5K resolution or dual 4K resolution\*
- Display Port Video Output (4K)
- 15W Power Delivery via USB-C
- Thunderbolt 3 / USB-C expansion port
- 40 Gbps data bandwidth
- USB-C port (USB 3.1 Gen1)

- 2 x USB 3.1 Type-A port
- Gigabit Ethernet Port
- 3.5mm audio input and output

\*Maximum resolution of one 5K or dual 4K is dependent on the capability of the video display and its computer source.

## Specifications

| Function                       | GTD733   | Dimensions                     | GTD733           |
|--------------------------------|--|--------------------------------|------------------|
| <b>Cable Connections</b>       |  | <b>Unit Dimensions</b>         |                  |
| Input                          | Thunderbolt 3 (USB-C)  | Height                         | 1.1" (2.8cm)     |
| Output                         | Thunderbolt 3 (USB-C), both TBT3 port can connect to host computer and both support 15W PD | Length                         | 8.75" (22.2cm)   |
| <b>Cable Length</b>            |  | Depth                          | 3.13" (8cm)      |
| <b>Cable Type</b>              |  | <b>Unit Package Dimensions</b> |                  |
| Thunderbolt 3 (USB-C to USB-C) |  | Height                         | 4.5" (11.3cm)    |
| <b>Connectors</b>              |  | Width                          | 9.8" (25cm)      |
| Audio Input                    | 3.5mm Line-in  | Depth                          | 5.12" (13cm)     |
| Audio Output                   | 3.5mm Line-out   | <b>Master Carton</b>           |                  |
| Computer Side                  | Thunderbolt 3  | Height                         | 10.6" (27cm)     |
| Power                          | DC 12V 6A Full Range Power Adapter   | Width                          | 20.5" (52cm)     |
| USB                            | 1 x USB-C (USB 3.1 Gen1), 2 x USB-A (USB 3.1 Gen1)   | Depth                          | 16.5" (42cm)     |
| Video Output                   | DisplayPort (up to 4096x2160 60Hz) and via Thunderbolt 3 USB-C port (up to 4096x2160 60Hz) | Master Carton Qty.             | 12               |
| LAN                            | Gigabit Ethernet   | <b>Weight</b>                  |                  |
|                                |  | Master Carton Wt.              | 35 lbs (15.8kgs) |
|                                |  | Unit Pack Wt.                  | 2.7 lb (1.22kgs) |
|                                |  | Unit Wt.                       | 1 lb (0.45kgs)   |
