

GUWAVKIT2

Wireless HD Computer to TV Kit, with 1 HDMI Output

Connect Your Computer to Your TV Wirelessly

IOGEAR is proud to announce the Wireless HD Computer to TV Kit. This brand new solution delivers High Definition video up to 720p from your computer to your home entertainment center. With the utilization of the very latest Ultra-WideBand (UWB) Wireless USB technology, wireless multimedia streaming is now more stable and more resistant to interferences than ever before.

Enjoy your computer content on a big screen without cables stretching across the room:

- Surf the Internet and experience your favorite online shows from the comfort of your couch
- View your photos and slideshows on the big screen with your friends and family
- Display presentations and content wirelessly using a projector for business meetings
- Stream music library or Internet radio from your computer to your home theater system
- Extend your laptop screen to the HDTV while working on your laptop

• **Enjoy your content wirelessly** - Get home videos, photos, presentations, online videos and social networking all on your big screen TV up to 30ft away

• **HDMI / VGA Output** - Use HDMI output for both video & audio or use VGA / DVI with 3.5mm audio jack (stereo) for audio support (DVI adapter sold separately)

• **Eliminate Cable Clutter** - Connect your computer to TV*, monitor or projector wirelessly without the long and unattractive cable run**

• **Certified Wireless USB** - Works with your computer's USB port, no HDMI output port needed

• **Wireless HD Video** - Up to 720p video streaming; Supports resolutions up to SXGA 1400 x 1050***

• **Ultra-Fast** - Strong and reliable wireless signals. Ideal for streaming media content across the room up to 30 ft. away****

• **Easy & Secure** - No complicated network setup, adapters are already pre-associated (paired)

*This item is not compatible with traditional CRT TVs

**Maximum performance for wireless USB derived from Wireless USB specifications. Actual performance may vary.

***Suggested system requirements to play online video clips in a "window".
1.6 GHz Atom™ with 1GB RAM, 480p video in a "window" 1.6 GHz Pentium™ M with 1GB RAM, 720p video in "full screen" 1.8 GHz Core™ 2 Duo with 1GB RAM

****This product is intended to be used in the same room and is a line-of-sight solution. Please be advised that it will not "see-through" walls or other physical obstacles.
