

GWHD11

Wireless Video Connection Kit for 1 TV with HDMI®

Send uncompressed Full HD 1080p with 3D support from your laptop, computer, game console and / or other HDMI devices

Perfect for home, office or school - send uncompressed Full HD 1080p with 3D support from your laptop, computer, game console and / or other HDMI devices.

Multiple Transmitters For Multiple Presenters

Up to three additional Wireless HDMI Transmitters can be paired to the Receiver, adding up to four total Wireless HDMI Transmitters per Receiver.

Wirelessly Extend or Mirror your Computer

Take advantage of your large screen HDTV and mirror or extend your computer's screen wirelessly. Browse the Internet, view streaming video sites and share photos and videos for easier viewing.

Plug-N-Play

- Wireless audio/video kit for one (1) TV with an HDMI connector
- Wireless uncompressed Full HD 1080p audio/video streaming with 3D support up to 30ft*
- Connect and send content from a laptop, game console, Blu-ray player or set-top box/DVR/Cable box
- Supports 5.1 channel digital audio
- Video Resolutions: 480p, 720p, 1080i and 1080p
- No software or driver installation needed

- Based on WHDI™ Technology - Low latency < 1ms; great for wireless gaming
- Add up to 3 additional wireless transmitters (Part# [GWHDSTXB](#)) and expand the number of HDMI devices that can transmit to the receiver**

*Up to 3 additional wireless video transmitters with HDMI connectors, line of site, sold separately - Part# [GWHDSTXB](#)

How does it work?

- Connect the HDMI Transmitter to a laptop or media player HDMI port
- Connect the Receiver to your HDTV or HD projector with an HDMI cable
- Wirelessly play content on your HDTV

Requirements
