

## IOGEAR MediaShair Hub Firmware Update:

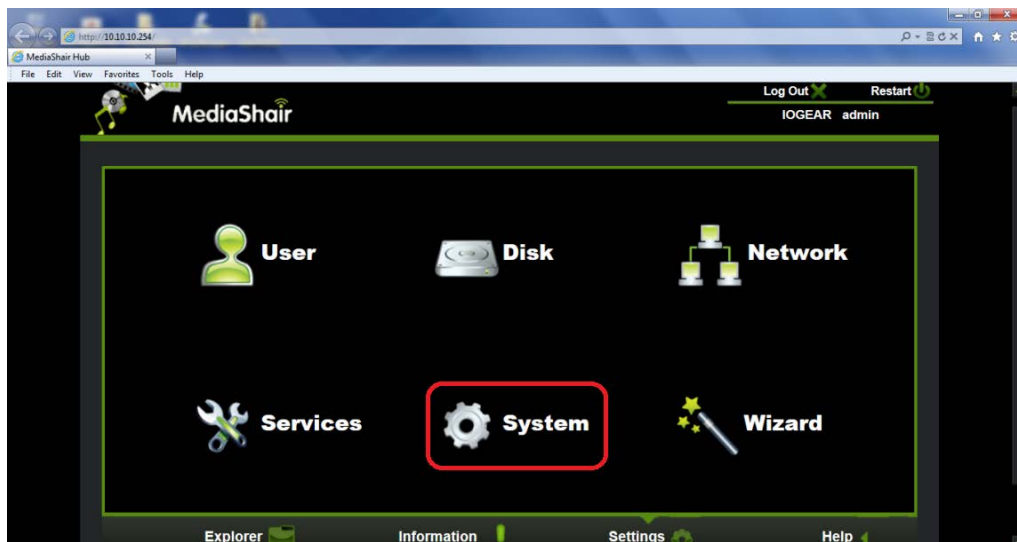

The GWFRSDU MediaShair Hub firmware may be upgraded in one of two ways, depending on the revision of firmware currently installed. If updating from versions prior to v2.000.012, please follow Method 1 to upgrade via computer connection. To upgrade from versions v2.000.012 or higher, you may choose either Method 1 or Method 2 to upgrade via SD card.

### Method 1: Installing from a computer with Wi-Fi connection

1. Download the latest firmware from [www.iogear.com](http://www.iogear.com) and remember where you saved the file.
2. Power up the MediaShair Hub wait until the wireless network LED (blue) is on.
3. Connect your computer to the MediaShair-XXXX wireless network.
4. Open a web browser window and enter 10.10.10.254 into the address bar.
5. When the MediaShair browser client opens enter the following information and click Log In:
  - Username: **admin** (if the default username has been changed enter it here)
  - Password: leave blank (if a password has been added enter it here)

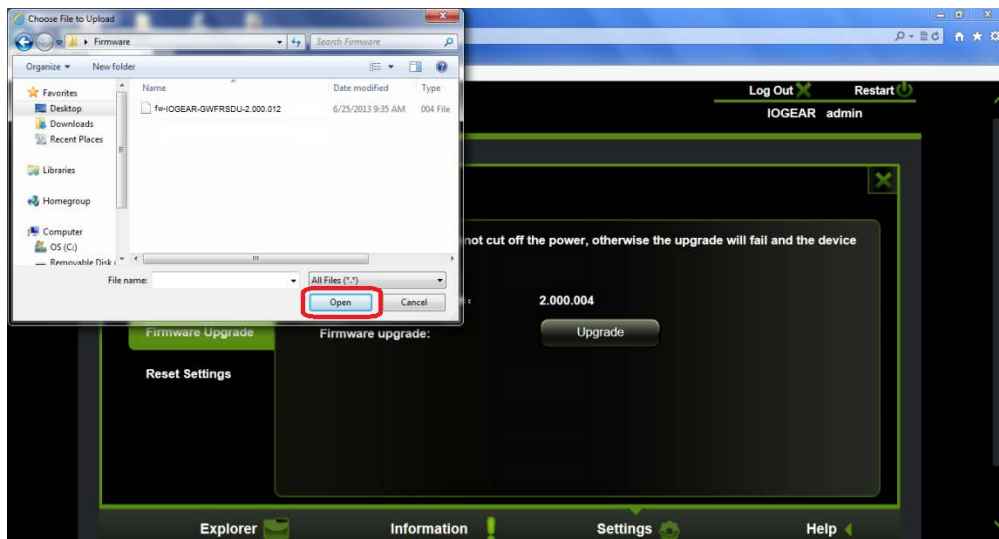

6. Click the System icon.

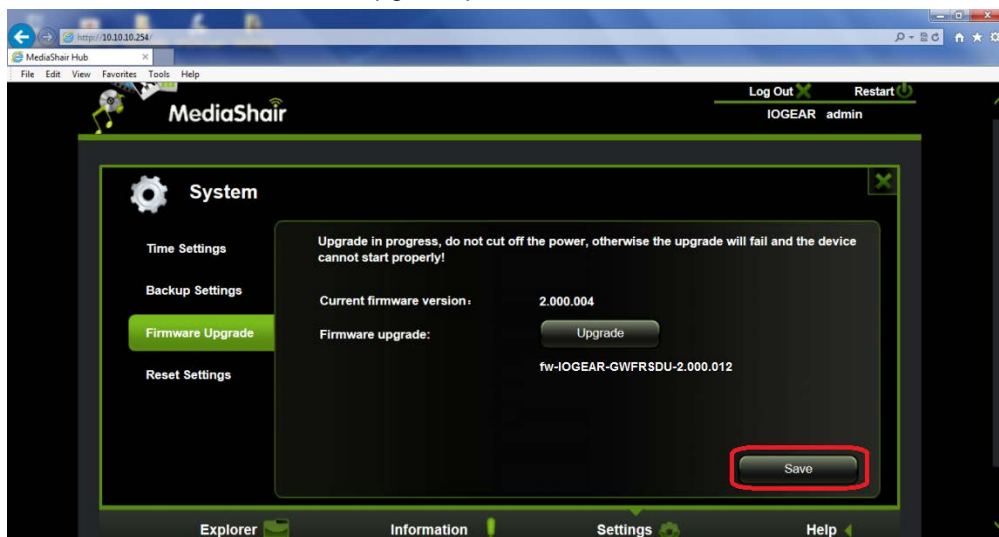

In the System menu click the Firmware Upgrade tab and select Upgrade.

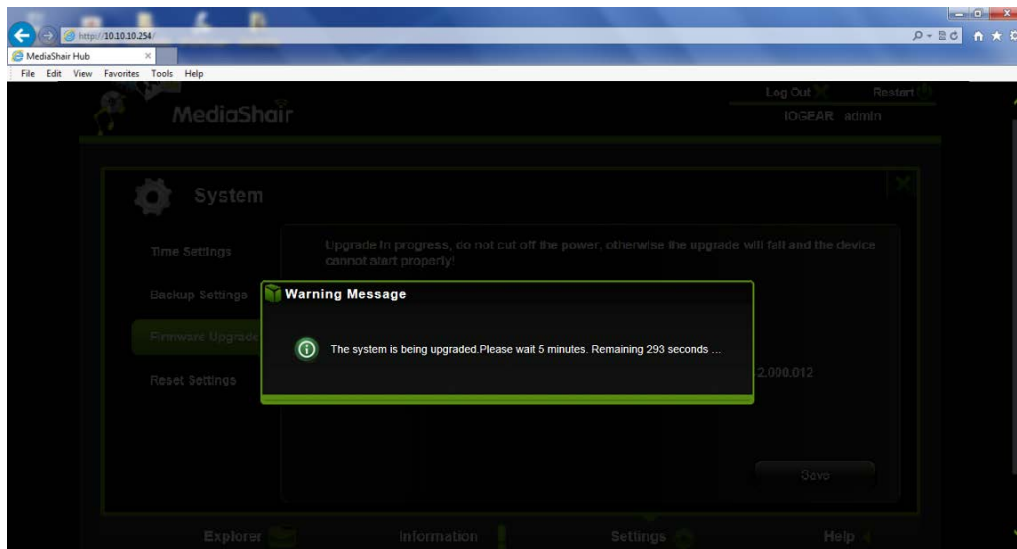

7. Open the location where you saved the firmware file, select the file and click Open.

8. Click Save to start the firmware upgrade process.

9. It will take 5 minutes to complete the firmware upgrade process- DO NOT TURN OFF THE MEDIASHAIR HUB WHILE IT IS UPDATING!

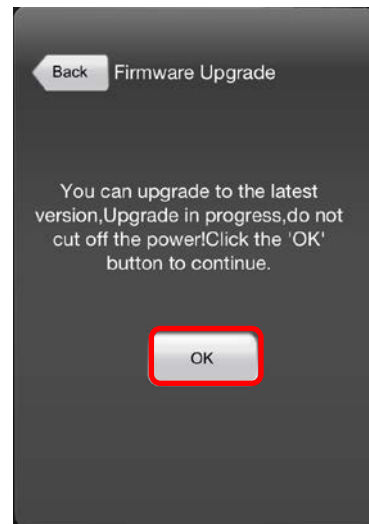

10. Once the process is complete the MediaShair Hub will reset and you may turn it off, or reconnect to the MediaShair-XXXX wireless network and Log In to use it with your computer.

#### Method 2: Installing from a SD card

1. Download the latest firmware from [www.iogear.com](http://www.iogear.com).
2. Transfer the firmware file to the root directory of your SD card. The file must be located directly inside the root directory, and NOT inside any file folder.
3. Plug your SD card with the firmware file into the MediaShair Hub.
4. Power up the MediaShair Hub wait until the wireless network LED (blue) is on.
5. Connect your mobile device to the MediaShair-XXXX wireless network.
6. Open the MediaShair App and tap Settings.

7. Tap Firmware Upgrade then tap OK.

8. It will take 5 minutes to complete the firmware upgrade process- DO NOT TURN OFF THE MEDIASHAIR HUB OR MOBILE DEVICE WHILE IT IS UPDATING!

9. Once the process is complete the MediaShair Hub will reset and you may turn it off, or reconnect to the MediaShair-XXXX wireless network to use it.
