FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This product generates, uses, and can radiate radio frequency energy and, if not installed and used as directed, it may cause harmful interference to radio communications. Although this product complies with the limits for a Class B digital device, there is no guarantee that interference will not occur in a particular installation.

CE Compliance

This device has been tested and found to comply with the following European Union directives: Electromagnetic Capability (89/336/EMC), Low Voltage (73/23/EEC) and R&TTED (1999/5/EC).

Keyboard – Front View

1. Mute Button
2. Default Homepage (Internet Explorer)
3. E-Mail
4. Previous Page
5. Next Page
6. Search
7. Refresh
8. Battery Low/Pairing Indicator
9. Touchpad
10. Mouse Left Click
11. Mouse Right Click

Keyboard – Back View

1. On/Off Switch
2. Reset Button
3. Battery Cover

Battery Installation

1. Open the battery cover in the back of the keyboard
2. Insert the two AA alkaline batteries. Make sure the batteries are installed properly as per the directions that are indicated inside the battery tray.
3. Close the battery cover

Pairing Keyboard

Pairing Bluetooth keyboard with Bluetooth enabled device or Bluetooth Host
1. Turn on the device or Bluetooth Host and make sure the Bluetooth device is set in "Search" mode.
2. Switch Bluetooth keyboard (GKM611B) power to **"On"** position.
3. Press and hold **"Fn"** and then press **"1"** on the Bluetooth keyboard. Then release together.
4. Press **"Reset"** button on the back of the keyboard to activate Bluetooth discovering. (Pairing indicator LED on the keyboard will flash during pairing)
5. Launch the Bluetooth program in the Bluetooth enabled device or Bluetooth Host
6. Add (Search) for new devices. Users should be able to find a new device "GKM611B".
7. During the connection process, Bluetooth enabled device will provide a pass CODE for pairing. Enter the pass CODE from the keyboard.
8. Wait for adding a new HID device "GKM611B" into the system.

Pairing Bluetooth keyboard with additional Bluetooth enabled devices or Bluetooth Hosts
1. Turn on the device or Bluetooth Host and make sure the Bluetooth device is set in "Search" mode.
2. Switch Bluetooth keyboard (GKM611B) power to **"On"** position.
3. Press and hold **"Fn"** and then press **"2"** on the Bluetooth keyboard. Then release together.
4. Press **"Reset"** button on the back of the keyboard to activate Bluetooth discovery mode. (Pairing indicator LED on the keyboard will flash during pairing)

Subsequent steps are the same as pairing with the first device. The Bluetooth keyboard can pair with up to 6 different Bluetooth enabled devices. The user can use the keyboard to control 6 different Bluetooth enabled devices.

For Toshiba Bluetooth Program User:
In order to link to Toshiba based Bluetooth program, please follow the below steps:

1. Turn on the device of Bluetooth Host and make sure the Bluetooth device is set in "Search" mode.
2. Switch Bluetooth keyboard (GKM611B) power to **"On"** position.
3. Press and hold **"Fn"** and then press **"1"** on the Bluetooth keyboard. Then release together.
4. Press **"Reset"** button on the back of the keyboard to activate Bluetooth discovery mode. (Pairing indicator LED on the keyboard will flash during pairing)
5. Press and hold **"Fn"** and then press **"7"** on the Bluetooth keyboard. Then release together.

Switching to the desired device

1. Make sure to turn on Bluetooth for the desired device
2. Press and hold "Fn" and press the device number (1~6). Then release together.
3. The keyboard will connect to desired device.

User also can press and hold "Fn" and press "Tab" to connect to the previous device.

Important: If a user switches to an unpaired device number, the user will need to wait about 2~5 second to switch to another device.

Master Reset

If a user forgets which devices paired with the keyboard and would like to reset the keyboard to factory default, simply press and hold the "Reset" button for more than 3 seconds. The keyboard will erase all devices which were paired with the keyboard.
