HDMI, the HDMI logo, and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.

1

Product Overview

Start Here!

1. Power indicator
2. USB mini-B female port
3. DC Power Jack
4. HDMI® female port

Software Installation

Important! Do not connect the device to the PC before the software installation.

1. Insert the included CD to the CD-ROM/DVD-ROM of your computer. The installation process will automatically launch. Select the preferred language for the installation and click on "I Accept" to continue.
2. Restart the system if needed.

2

Hardware Installation

1. Connect the mini-B end of the included USB cable to the mini-B port on the USB External HD Video Adapter. Then connect the USB Type-A end of the cable to any available USB port on the computer. Once plugged in, the Installing Device Driver Message will come out and the Windows User Account Control window opens.

2. The device will be installed automatically.

3. User should be able to see the display icon on the task bar.

Note: On some computers, users may need to reboot before the user can use the device.

4. Connect the male end of the HDMI cable to the HDMI port on the USB External HD Video Card. Then connect the other male end of the HDMI cable to the HDMI port on the monitor/display.

3

Configuration

Users can configure USB External HD Video Adapter by clicking on the display icon.

4

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This product generates, uses, and can radiate radio frequency energy and, if not installed and used as directed, it may cause harmful interference to radio communications. Although this product complies with the limits for a Class B digital device, there is no guarantee that interference will not occur in a particular installation.

FCC Statement

This device has been tested and found to comply with the following European Union directives: Electromagnetic Capability (89/336/EMC), Low Voltage (73/23/EEC) and R&TTE (1999/5/EC).
