## Gyroscopic Mouse Function

# 4

1. To turn ON the gyroscopic mouse movement, press the mouse control button .
2. Once ON, simply point the RedPoint Pro at the screen and move your cursor with a flick of your wrist.
3. To calibrate the cursor location with your point of aim, press the mouse control button to turn off mouse movement, then aim the RedPoint Pro at the mouse cursor and press the mouse control button again to turn cursor movement back on.
4. To turn OFF the gyroscopic mouse movement or to avoid cursor movement when using the laser pointer feature, simply press the mouse control button .

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This product generates, uses, and can radiate radio frequency energy and, if not installed and used as directed, it may cause harmful interference to radio communications. Although this product complies with the limits for a Class B digital device, there is no guarantee that interference will not occur in a particular installation.

## CE Compliance

This device has been tested and found to comply with the following European Union directives: Electromagnetic Capability (2004/108/EC), Low Voltage (2006/95/EC) and R&TTE (1999/5/EC).
