

# Quick Start Guide

GearPower Mobile Power Station 4400

# Package Contents

1 x GearPower Mobile Power Station  
1 x Coiled USB Charging Cable  
1 x 5V 1A AC Adapter

5 x Device Adapters  
1 x Carrying Pouch  
1 x Quick Start Guide

1 x Warranty Card

## Overview

1. USB Type A Female port 5V 1A (Output)
2. Micro-USB Female charging port (Input)
3. Charging/Capacity indicator
4. Battery capacity button

## Charging GearPower

Connect the GearPower Mobile Power Station to a power source using the included Micro USB cable and power adapter.

1. Plug the USB type A connector into the USB port of the 5V 1A power adapter. Plug power adapter into power outlet.
2. Insert the Micro USB connector into the Micro USB port of the Mobile Power Station.
3. The LED charging indicator will light up "Blue" and blink. Once the Mobile Power Station is fully charged, all four LED charging indicators will light up solid "Blue".

The USB charging cable can be plugged in to your computer's available USB port or any wall-plug style power source with the included 5V 1A power adapter.

# Charging Mobile Devices

Users need to identify the power supply current they need for their devices. It usually can be found in the mobile device manual.

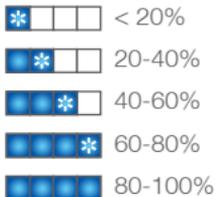

- 1A output port supports: cell phones, smartphones, tablets, iPhones, iPods, BlackBerry phones, digital cameras and most MP3 players and other devices which require 1A power supply (This port will not support devices requiring 2.1A power source)

1. Connect the USB Type A connection end of the charging cable to the desired power 1A output port
2. Connect the other end to your mobile device
3. Press the battery capacity button to begin charging

# LED Battery Indicator

This chart shows the various stages of power availability and consumption on Mobile Power Station's LED battery indicator.

# Product Caring

- Keep Mobile Power Station dry and away from moisture and corrosive materials.
- Do not wash Mobile Power Station
- Re-charge Mobile Power Station once every three months when not in use
- Charge GearPower between 32 F (0 C) and 113 F (45 C)

# Warning

**Do not damage the rechargeable battery. A damaged battery can cause an explosion or fire, and can result in personal injury and/or property damage. To prevent injury or damage:**

- Do not use or charge the battery if it appears to be damaged. Signs of damage include, but are not limited to, discoloration, warping, and leaking battery fluid.
- Do not expose the battery to fire, high temperature, or direct sunlight.
- Do not immerse the battery in water.
- Do not use or store the battery inside a vehicle during hot weather.
- Do not drop or puncture the battery.
- Do not open the battery or short-circuit its contacts.

**Use the battery only for its intended use and according to the instructions in the product documentation.**

**Avoid contact with the rechargeable battery if it appears to be leaking. Battery fluid is corrosive, and contact with it can result in personal injury and/or property damage.**

**To prevent injury or damage:**

- If the battery leaks, avoid contact with the battery fluid.
- If battery fluid gets into your eyes, immediately rinse your eyes with clean water and seek medical attention. Do not rub your eyes!
- If battery fluid gets onto your skin or clothing, immediately use clean water to wash off the battery fluid.

**Charge and use the rechargeable battery only in strict accordance with the instructions.**

- Charging or using the battery in unauthorized equipment can cause an explosion or fire, and can result in personal injury and/or equipment damage. To prevent injury or damage:
- Do not charge or use the battery if it appears to be damaged or leaking.
- Discontinue charging a battery that gives off extreme heat or a burning odor.
- Use the battery only in the equipment that is specified to use it.

**Never dispose of batteries in the garbage. Disposal of batteries in the garbage is unlawful under state and federal environmental laws and regulations. Always take used batteries to your local battery-recycling center.**

## FCC Statement

This product has been tested and found to comply with the limits for a Class B device, pursuant to part 15 of the FCC Rules. It is intended for use in residential setting, but may also be used in commercial or industrial setting.

## CE Compliance

This device has been tested and found to comply with the following European Union directives: Electromagnetic Capability (89/336/EMC), Low Voltage (73/23/EEC) and R&TTED (1999/5/EC).
