2 Installation

**To Enter Pairing Mode for the Transmitter:**

1. Plug the GWHDSTX into the HDMI-ready computer's HDMI port or Source player's HDMI Out.
2. Power is supplied by connecting the Mini USB to USB cable (included in package) to the GWHDSTX and computer with their respective ports. Or connect the power adapter to the Mini USB port on the GWHDSTX and a wall outlet for power supply. The LED Status indicator should light blue when the GWHDSTX is connected to the computer through USB.
3. Press and hold the **Pairing Button**.
4. The GWHDSTX is in Pairing Mode once the Power LED flashes blue slowly. Release the pairing button once it enters Pairing Mode.

To Enter Pairing Mode for the Receiver:

1. Plug in the Power Adapter and connect the receiver to your HDMI display using an HDMI cable (not included in package).

USB   HDMI   HDMI Display

2. Press the **Transmitter No.** key on the remote control, which should be included with your existing receiver.

3. Select **SETUP**; the Setup menu will appear on the on-screen display.

Select Transmitter Number:
GWHDMS52
SETUP

4

5. Select **Add New Transmitter**.

SETUP:
Add New Transmitter
Remove Transmitter
Modify Transmitter Name
Return

The on-screen display will show **Searching.....**

Searching....

The Power LED will flash ORANGE when it is in Pairing Mode.

To exit Searching mode: Press the **Transmitter No.** key on the remote control.

5

6. When both the GWHDSTX and Receiver are in Pairing Mode, it will search for each other and automatically pair.

Adding GWHDSTX

After the pairing is complete, both the GWHDSTX and Receiver will re-boot and establish the link to each other automatically within 5 seconds.

Computer Display Setting

You can adjust your display by going to your computer's screen resolution preferences to choose your HDMI-ready computer setup to be in "Duplicate," "Extend," or "Project Only" for image on the external display.

Computer only   Duplicate   Extend   Projector only

If all operation is normal, the LED lights on both the transmitter and receiver will be solid blue.

6 FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This product generates, uses, and can radiate radio frequency energy and, if not installed and used as directed, it may cause harmful interference to radio communications. Although this product complies with the limits for a Class B digital device, there is no guarantee that interference will not occur in a particular installation.

CE Statement

This device has been tested and found to comply with the following European Union directives: Electromagnetic Capability (2004/108/EC), Low Voltage (2006/95/EC) and R&TTED (1999/5/EC).
