Quick Start Guide

GearPower DuoLinq™ Mobile Power Station

GMP10AL

PART NO. Q1354

Package Contents

1

- 1 x 10,000mAh Mobile Power Station
- 1 x 2-in-1 DuoLinq Charging Cable (Lightning and Micro USB)
- 1 x Carrying Pouch
- 1 x Quick Start Guide
- 1 x Warranty Card

Overview

1. USB Type A Female Port (Output): 5V 2.1A
2. Micro USB Female Port (Input): 5V 1.7A
3. USB Type A Female Port (Output): 5V 1A

4. LED Charging/Capacity Indicator
5. Battery Capacity Check/On Button

Using the DuoLinq Charging Cable

Charging Micro USB Devices:

Use the micro USB end of the DuoLinq cable to charge micro USB devices such as GearPower and Android devices.

Android/
Micro USB device

Charging iOS devices:

Attach the Lightning connector adapter to the micro USB end of the DuoLinq cable. Now plug the cable into the lightning port of your iPod, iPhone or iPad.

iOS

Charging Mobile Devices

Users need to identify the power supply current they need for their devices. It usually can be found in the mobile device manual.

- 1A output port supports: cell phones, smartphones, iPhones, iPods, Windows phones, digital cameras and most MP3 players and other devices which require 1A power supply (This port will not support devices requiring 2.1A power source).

- 2.1A output port supports: iPads, tablets and other devices which require 2.1A as well as cell phones, smartphones, iPhones, iPods, BlackBerry phones, digital cameras and most MP3 players.

1. Connect the USB Type A connection end of the charging cable to the desired power output port (1A or 2.1A).
2. Connect the other end to your mobile device.
3. Once connected to the device, charging will begin automatically. If charging does not begin, simply press the battery check button once to wake the Mobile Power Station.

Charging GearPower

Connect the GearPower Mobile Power Station to a power source using the included DuoLinq Cable.

Charging Cable

1. Plug the USB type A connector into the USB port of any standard 5V 1A or 1.7A USB power adapter. Plug power adapter into power outlet.
2. Insert the Micro USB connector into the Micro USB port of the Mobile Power Station.

3. The LED charging indicator will light up "blue" and blink. Once the Mobile Power Station is fully charged, all four LED charging indicators will light up solid "blue".

The USB charging cable can be plugged into your computer's available USB port or any wall-plug style power source.

*When 1st LED flashes, there is < 20% power.

Product Caring

- Keep Mobile Power Station dry and away from moisture and corrosive materials.
- Do not wash Mobile Power Station.
- Re-charge Mobile Power Station once every three months when not in use.

Warning

Do not damage the rechargeable battery.

A damaged battery can cause an explosion or fire, and can result in personal injury and/or property damage. To prevent injury or damage:

- Do not use or charge the battery if it appears to be damaged. Signs of damage include, but are not limited to, discoloration, warping, and leaking battery fluid.
- Do not expose the battery to fire, high temperature, or direct sunlight.
- Do not immerse the battery in water.
- Do not use or store the battery inside a vehicle during hot weather.
- Do not drop or puncture the battery.
- Do not open the battery or short-circuit its contacts.

Use the battery only for its intended use and according to the instructions in the product documentation. Avoid contact with the rechargeable battery if it appears to be leaking. Battery fluid is corrosive, and contact with it can result in personal injury and/or property damage.

To prevent injury or damage:

- If the battery leaks, avoid contact with the battery fluid.
- If battery fluid gets into your eyes, immediately rinse your eyes with clean water and seek medical attention. Do not rub your eyes!
- If battery fluid gets onto your skin or clothing, immediately use clean water to wash off the battery fluid.

Charge and use the rechargeable battery only in strict accordance with the instructions.

- Charging or using the battery in unauthorized equipment can cause an explosion or fire, and can result in personal injury and/or equipment damage.

To prevent injury or damage:

- Do not charge or use the battery if it appears to be damaged or leaking.
- Discontinue charging a battery that gives off extreme heat or a burning odor.
- Use the battery only in the equipment that is specified to use it.

Never dispose of batteries in the garbage. Disposal of batteries in the garbage is unlawful under state and federal environmental laws and regulations. Always take used batteries to your local battery-recycling center.

Compliance Information

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This product generates, uses, and can radiate radio frequency energy and, if not installed and used as directed, it may cause harmful interference to radio communications. Although this product complies with the limits for a Class B digital device, there is no guarantee that interference will not occur in a particular installation.

CE Compliance

This device has been tested and found to comply with the following European Union directives:
Electromagnetic Capability (2004/108/EC), Low Voltage (2006/95/EC) and R&TTED (1999/5/EC).

Declaration of Conformity and related documents can be downloaded directly from our website:
<http://www.iogear.com/product/GMP10AL/certifications>

Canada, Industry Canada (IC) Notices

This Class B digital apparatus complies with Canadian ICES-003 and RSS-210.

Operation is subject to the following two conditions:

1. This device may not cause interference
and
2. This device must accept any interference, including interference that may cause undesired operation of the device.
