## Package Contents

- 1 x Bluetooth® 4.0 USB Micro Adapter
- 1 x Quick Start Guide
- 1 x Warranty Card

Prior to installing the adapter to your computer, please download and install the driver for GBU521 Bluetooth Adapter from <https://www.iogear.com/support/dm/driver/GBU521>

## System Requirements

- Available USB-A port
- Windows® 7, Windows® 8.1, Windows® 10

## Installation-Windows

1. Make sure that the IOGEAR Bluetooth adapter is **NOT** plugged into the computer before installing the software.
  - Insert the CD or download the software driver from the IOGEAR website.
  - For downloaded driver, please unzip the file into a folder on your computer.
  - Double click on the application file to initiate the installation process.

2. Click **Yes** to continue installation program.

3. Please allow the preparation to load until 100%

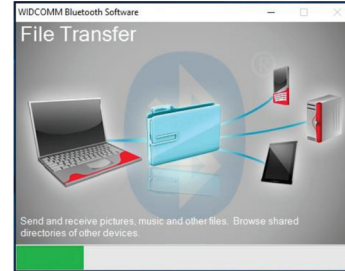

4. Select Agree and Install Bluetooth Software if you are OK with default installation folder location on your computer.

5. When you encounter the message of “No Bluetooth device was detected” please go ahead and plug the GBU521 into your USB port on the computer to continue.

6. The installation will continue until it reaches 100%.

7. Once the installation reaches 100%, click **Finish** to complete the installation.

8. Once the installation is completed with software driver and the Bluetooth Adapter detected by the operating system, you can use device manager to ensure the Bluetooth Adapter is now recognized by the Windows 8/10 operating system. If you cannot find device manager in Windows, simply type "device manager" on the search tab. After that, click on the search button.

9. Click on the up arrow on the lower right side of your application tray and click on the Bluetooth icon.

10. Click on **Add a Bluetooth Device**.

11. Turn on the Bluetooth device that you would like to be discovered and connected and select the Bluetooth device you wish to connect and click “**next**”. Compare the auto-generated pin code on the screen with the Bluetooth device that you are trying to connect. If the pin code is correct, accept/authorize the connection from your Bluetooth device. Click on “**Yes**” to complete the Bluetooth pairing process.

\*Please note: Some devices may not require any passcode to connect. In case your Bluetooth devices does not require a password, please proceed to the next step.

12. At this point, the installation of the new Bluetooth is now completed. Click on the upper arrow on the lower right corner of your application trays. Select the Bluetooth icon and click the Bluetooth device you wish to manage or configure.

13. If you are able to see the Bluetooth device (in this case the iPhone6), double click on the devices that you wish to configure. Depending on the type of Bluetooth device you are connecting, different tab option will appear for your configuration needs.

## Compliance Information

### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This product generates, uses, and can radiate radio frequency energy and, if not installed and used as directed, it may cause harmful interference to radio communications. Although this product complies with the limits for a Class B digital device, there is no guarantee that interference will not occur in a particular installation.

### CE Compliance

This device has been tested and found to comply with the following European Union directives: Electromagnetic Capability (2004/108/EC), Low Voltage (2006/95/EC) and R&TTED (1999/5/EC).

ICID 8740A-GBU521

### IC Statement

This device complies with Industry Canada licence-exempt RSS standard. Operation is subject to the following two conditions:

- (1) this device may not cause interference,  
and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

### IC Radiation Exposure Statement

This equipment complies with IC RSS-102 radiation exposure limit set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0.5 cm between the radiator and your body.

## Limited Warranty

### Warranty Information

This product carries a 3 Years Limited Warranty. For the terms and conditions of this warranty, please go to <http://www.iogear.com/support/warranty>
