Quick Start Guide

Smartlink™ Easy Transfer Cable

GUN262WV
PART NO. 03416

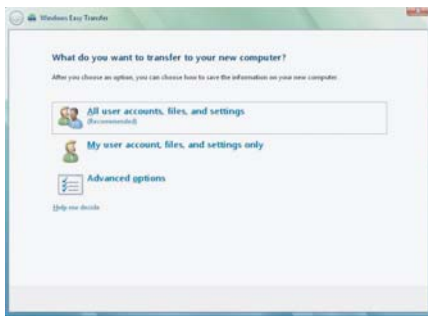

Welcome

Thank you for purchasing IOGEAR's Smartlink™ Easy Transfer Cable, we are sure you will be satisfied with your purchase. We believe you will find this device to be a valuable addition to your computer setup.

Folds: -----

Package Contents

- k. Choose either All user accounts, files and settings to transfer all the accounts and data over to the new computer or My user account, files, and settings to only transfer the account that you are currently on with the Old Computer (Windows XP).

- l. Review the transfer files and settings selected and simply click Transfer to begin the transfer.

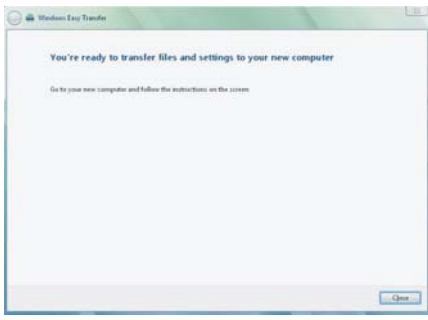

Installation

- m. Then simply input the new account name that you want it to be on the New Computer (Windows Vista), for example, IOGEAR. Then click next to begin the transfer.

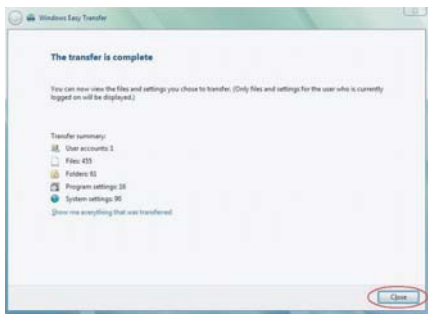

- n. When the transfer is completed on the Old Computer (Windows XP) side, go to the New Computer (Windows Vista) side, and simply click Close to proceed.

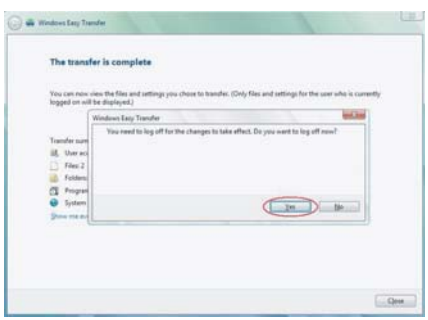

Note: Do not Click Close from the Old Computer (Windows XP) until the transfer on both sides are finished.

Connect the Cable

- o. When the transfer is completed on the New Computer (Windows Vista) side, simply click Close to proceed.

- p. Then a new window will pop up and telling you the New Computer (Windows Vista) needs to be log off/restart in order for the changes to take effect depending on the data that you have transferred over, simply click OK to have computer to log off/restart automatically. Then the transfer is finished completely. Now, we can go back to the old computer to click Close in the window shown in Step n.

Package Contents

Start Here!

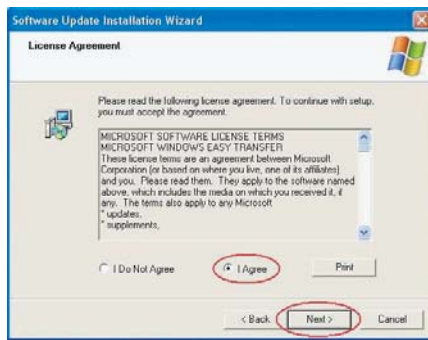

- (1) SmartLink data transfer cable
- (1) Windows XP Driver CD
- (1) Quick Start Guide
- (1) Warranty / Registration Card

Installation

- a. Insert the Installation CD provided in your old computer (Windows XP Operating System) and click OK on the AutoPlay Window. Then Click Next on the Software Update Installation Wizard window that pops up.

- b. Then Agree to the License Agreement then Click Next to begin the installation process.

Connect the Cable

- c. When the installation is finished, simply click Finish to complete the installation.

After completing the installation, we can now plug both ends of the cable to the new computer (Windows Vista) and old computer (Windows XP). Then the cable's driver will be installed automatically.

Transfer from OLD to NEW

- a. Run the Windows Easy Transfer by clicking Transfer files and Settings from the AutoPlay screen that pops up on the Windows Vista computer.

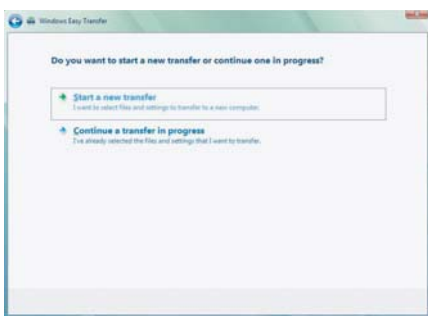

- b. Then a new window will pop up and simply click Next to proceed.

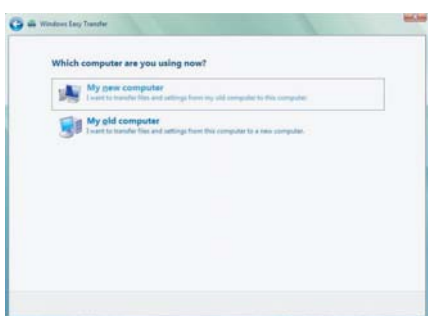

Package Contents

- c. Click Start a new transfer in the window to proceed.

- d. Then choose My new computer on the New Computer (Windows Vista).

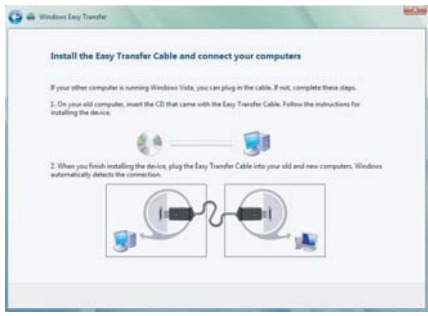

Installation

- e. Choose Yes, I have an Easy Transfer Cable to move to the next step.

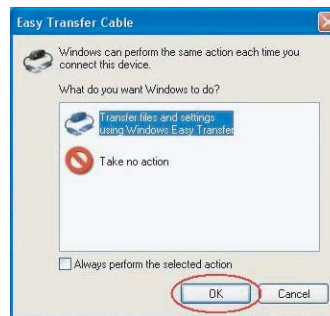

- f. Then the New Computer (Windows Vista) side is ready for the transfer. Therefore, we move on to the Old Computer (Windows XP) to finish up the transfer setting.

Connect the Cable

Windows XP

- g. On the old computer (Windows XP), run the Windows Easy Transfer by simply clicking OK from the AutoPlay screen that pops up..

- h. Simply click Next to move forward to the next step.

Transfer from OLD to NEW

- i. Click Use an Easy Transfer Cable to go to the next step.

- j. Then you will see A connection to the other computer has been detected on both New Computer and Old Computer indicating the cable is ready on both side for a transfer.
