- 1 x Quick Start Guide
- 1 x Registration / Warranty Card

If any of the items is missing or damaged. Please contact us immediately.

Introduction

Start Here!

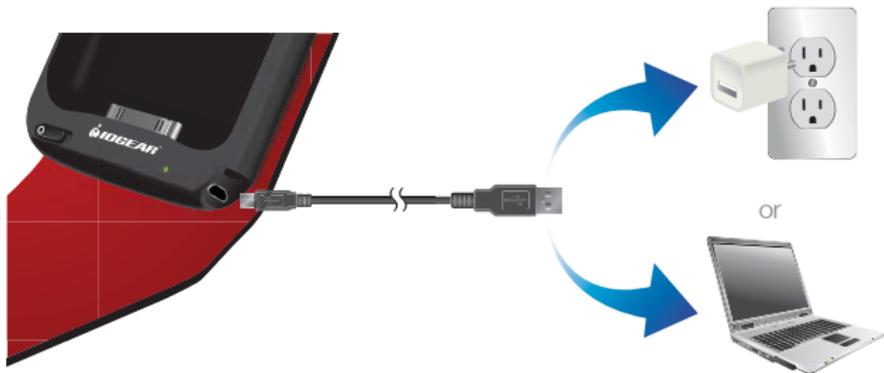

1. iPhone 30-pin connector
2. Micro-USB Female port
3. Charging Indicator
4. Charging and Sync Switch

Charging Battery Pack

Connect the Leather Battery Pack to a power source using the USB cable that came with your Leather Case. The USB cable can be plugged in your computer or any “made for iPhone” wall-plug style power source with USB out.

The charging indicator will flash in “Green”. Once the Leather Battery Pack is fully charged, the charging indicator will stay on green.

Charging iPhone

Make sure that the pin connector is securely inserted into the bottom of the iPhone. Turn on the charging switch. When iPhone recognizes the Leather Battery Pack, a battery symbol will appear on the screen. The charging indicator will turn red.

When Leather Battery Pack capacity is less than 10%, charging indicator will flash in red. It is recommended to turn the switch off and plug the USB cable to charge the device.

Sync with Computer

When sync with iPhone, users do not need to take out the iPhone from the leather case. Simply plug the USB cable to a PC/Mac and turn on the switch. Users will be able to sync iPhone and charge the battery at the same time.

Product Caring

1. Keep Leather Battery Pack dry and away from moisture and corrosive materials.
2. Do not wash Leather Battery Pack.
3. Re-charge Leather Battery Pack once every three months when not in use.

Warning

Do not damage the rechargeable battery. A damaged battery can cause an explosion or fire, and can result in personal injury and/or property damage. To prevent injury or damage:

- Do not use or charge the battery if it appears to be damaged. Signs of damage include, but are not limited to, discoloration, warping, and leaking battery fluid.
- Do not expose the battery to fire, high temperature, or direct sunlight.
- Do not immerse the battery in water.
- Do not use or store the battery inside a vehicle during hot weather.
- Do not drop or puncture the battery.
- Do not open the battery or short-circuit its contacts.

Use the battery only for its intended use and according to the instructions in the product documentation.

Avoid contact with the rechargeable battery if it appears to be leaking. Battery fluid is corrosive, and contact with it can result in personal injury and/or property damage. To prevent injury or damage:

- If the battery leaks, avoid contact with the battery fluid.
- If battery fluid gets into your eyes, immediately rinse your eyes with clean water and seek medical attention. Do not rub your eyes!
- If battery fluid gets onto your skin or clothing, immediately use clean water to wash off the battery fluid.

Charge and use the rechargeable battery only in strict accordance with the instructions.

- Charging or using the battery in unauthorized equipment can cause an explosion or fire, and can result in personal injury and/or equipment damage. To prevent injury or damage:
- Do not charge or use the battery if it appears to be damaged or leaking.
- Discontinue charging a battery that gives off extreme heat or a burning odor.
- Use the battery only in the equipment that is specified to use it.

Never dispose of batteries in the garbage. Disposal of batteries in the garbage is unlawful under state and federal environmental laws and regulations. Always take used batteries to your local battery-recycling center.

Federal Communications Commission (FCC) Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This product generates, uses, and can radiate radio frequency energy and, if not installed and used as directed, it may cause harmful interference to radio communications. Although this product complies with the limits for a Class B digital device, there is no guarantee that interference will not occur in a particular installation.

CE Compliance

This device has been tested and found to comply with the following European Union directives: Electromagnetic Capability (89/336/EMC), Low Voltage (73/23/EEC) and R&TTED (1999/5/EC).
